

Protection of RRSPs from Creditors

The BC government's announcement that it will recommend that RRSPs and similar savings instruments be protected from seizure by creditors is a testament to the strength of CBA advocacy.

Our BC Branch executives have demonstrated in spades that persistence and hard work has its rewards.

Kudos to Ken Walton and Miriam Maisonville and their predecessors who studied the issue, crafted the appropriate CBA resolutions, and ensured the issue had priority.

CBA-BC kept this front and centre with the BC government. As a result, the legal profession will benefit from their advocacy..

Well done!

Guy Joubert, CBA National President
