KNOWLEDGE IS THE LAWYER'S STOCK IN TRADE

In a profession where case law and legislation keep everything in flux, the quest for knowledge is never ending. The conferences and materials produced by New Brunswick Continuing Legal Education are important. They provide the latest word from respected specialists on new developments in the law.

This catalogue lists the materials produced for those conferences. They are available to practitioners who were unable to attend the original sessions, or who have an interest in the subject matter.

An order form can be found at the back of the catalogue. **Prices do not include HST.**

Materials of a general nature, such as these publications, should not be expected, or relied upon, to take the place of specific professional advice.

LES CONNAISSANCES JURIDIQUES, OUTILS DU MÉTIER D'AVOCAT

Dans une profession où la jurisprudence et la législation sont en perpétuelle évolution, la quête de connaissances est sans fin. Les conférences et la documentation que l'on doit à la Formation juridique permanente du Nouveau-Brunswick sont importantes. On peut y retrouver l'information la plus récente de la bouche même de spécialistes réputés en ce qui a trait aux événements les plus récents.

Le catalogue fournit la liste des documents préparés pour ces conférences. Les avocats qui n'ont pu assister aux séances de formation ou qui s'intéressent à l'une ou l'autre des questions traitées peuvent se procurer la documentation pertinente.

Une formule de commande vous est fournie au dos du catalogue. **Le prix n'inclut pas la TVH.**

La documentation générale comme ces publications ne devrait pas être considérée comme pouvant tenir lieu et place d'avis professionnels spécifiques.
